

IGRAF[®] ENHANCES MARKET-LEADING BUSINESS PROCESS ANALYSIS SOLUTION

iGrafx[®] 2011 Released: Key Enhancements include Business Architecture Modeling, Support for SAP[®] Environments, Life Cycle Management, and BPMN 2.0

Tualatin, OR. — October 18, 2010 — iGrafx[®], a leading provider of Business Process Analysis (BPA) solutions, announced today the availability of its latest software release, iGrafx 2011. This new release continues the iGrafx vision of enabling the whole organization to achieve process excellence by extending iGrafx functionality to additional audiences and activities in the organization.

iGrafx 2011 provides a range of enhancements and new capabilities across all components of the iGrafx suite of products. Significant areas of new functionality include:

Support for SAP[®] environments: iGrafx 2011 introduces 3 new components to the iGrafx suite, iGrafx[®] Process[™] for SAP[®], iGrafx[®] Enterprise Modeler[®] for SAP[®], and iGrafx[®] Gateway to SAP[®] Solution Manager.

Support for Enterprise Architecture: iGrafx 2011 introduces iGrafx[®] Process[™] for Enterprise Modeling, a new client for Business Architects and Analysts enabling broader modeling and collaboration around enterprise architecture and supporting dimensions of process models in the organization.

Support for Life Cycle Management: iGrafx 2011 introduces enhanced change management capabilities for the control of information through the life cycle of review, approval, and endorsement. Enhancements include scheduling and reminders capabilities with functionality enabling web-based interactions for everyone across an organization.

Support for leading standards: iGrafx 2011 supports the latest BPMN 2.0 and XPD^L 2.2 standards for process documentation and communication providing state-of-the-art process modeling standards as an option for facilitating corporate wide process initiatives.

When combined with pre-existing capabilities, the new and enhanced features deliver benefits enabling organizations to be agile in their business transformation activities and aggressively pursue process excellence.

“iGrafx 2011 continues the evolution of our process excellence vision by further broadening the iGrafx value proposition to more constituencies in our customers’ organizations,” said Ken Carraher, President of iGrafx. “Our new support for SAP[®] environments addresses a critical pain point for many organizations in the world and our new web-based capabilities empower our customers’ change agents to embrace their whole organization in their pursuit of process excellence.”

About iGrafx

iGrafx (www.igrafx.com) provides a comprehensive Business Process Analysis solution that helps organizations model, improve and manage processes and technologies that support, simplify, and automate their operations. Whether aligning business objectives with IT systems, complying with industry regulations, automating business processes, or undertaking initiatives such as Six Sigma and Lean, iGrafx provides the ability to leverage results, improvements and controls across these efforts, resulting in increased return on investment. iGrafx’s industry-leading solutions are used by thousands of organizations world wide in their efforts to achieve process excellence. iGrafx is a division of Corel Corporation.
